

SOFT EDGE 70

DESIGN BY ISKOS-BERLIN

Made possible by exploring innovative developments in moulded plywood techniques, Iskos-Berlin's Soft Edge series blends strong curves with extreme lightness to create a three-dimensionality that is not normally possible with 2D plywood. All the edges of the ultra-thin, soft-formed seats are bent away from the body, designed to optimise human-centric comfort for constant shifting and movement. This shorter stool variant features straight steel legs that enhance the minimalistic aesthetics and create a feeling of lightness. Its strength and functionality ensure years of everyday use in a wide range of public and private environments – from corporate spaces and cafés to home environments.

PRODUCT DETAILS

- / Part of a family of dining chairs, bar stools and stools with steel base or solid oak legs or polypropylene seat and back with steel base.
- / 3-dimensional form based on the latest developments in moulded plywood technique using ordinary plywood.
- / Variety of seat and base colours and finishes.
- / Suitable for a wide variety of private and public environments.
- / Qualified for contract use.

HAY
