

SOFT EDGE P30

Design by Iskos-Berlin

Iskos-Berlin's Soft Edge chair and stool series features a rounded frame and organically shaped seat and back, blending strong curves with extreme lightness to create a minimalistic design with dynamic comfort. All the edges of the ultra-thin, soft-formed seats are bent away from the body, designed to optimise human-centric comfort for constant shifting and movement.

With its plastic (PP) seat in a wide range of colours, and powder coated or chromed long steel legs, Soft Edge P30 offers uncluttered aesthetics with a feeling of lightness. Its strength and functionality ensure years of everyday use in diverse public and private environments – from the home to corporate spaces, cafés and institutions.

PRODUCT DETAILS

- / Part of a family of dining chairs, bar stools and stools with steel base or solid oak legs or polypropylene seat and back.
- / Polypropylene (PP) seat and back available in a wide range of colours, and powder coated or chromed steel base.
- / Suitable for a wide variety of private and public environments.
- / Qualified for contract use.
- / The chair is also available in wood in different colours and finishes (Soft Edge 12, 32 and 72) and with steel frame and wood seat and back (Soft Edge 10, 30 and 70).

HAY
